

Northern Australia Primary Health Limited (NAPHL) is a recognised leader in outreach health and wellbeing services and National Disability Insurance Scheme (NDIS) approved supports.

NAPHL AND THE NDIS

At NAPHL, we are committed to delivering care that fosters self-mastery and self-determination and improved health and wellbeing. Our multidisciplinary approach is supported by experienced clinicians with an extensive range of capabilities.

WHAT DO WE PROVIDE?

At NAPHL our goal is to provide family centred and individualised support services and a simplified NDIS experience, supporting individuals and their families to navigate through the NDIS. We are registered to provide NDIS services across all age groups. We offer co-ordinated therapy services with a collaborative approach to attaining your goals.

Our expertise lies in our ability to enhance life goals for NDIS participants with formalised plans in place to provide therapeutic support services to those in need. We work with our NDIS clients to strengthen and build capacity.

NAPHL has experience in designing programs and services to meet the needs of individuals and families living in regional, rural and remote locations.
